

Year 10 Course Guide

2020-2021

GCSE English & English Literature

Mr R Garry

Examination Board	AQA
Syllabus	Language: 8700/Literature: 8702

All students study a combined GCSE English Language and English Literature course leading to two GCSE qualifications:

English Language

- There are two 1-hour 45 minutes examinations at the end of Year 11. Each examination will test students' reading comprehension skills (50%) and writing skills (50%).
- Spoken language (completed at regular intervals throughout the course) is also covered leading to a separate grade on the examination certificate. The speech/presentation is assessed and moderated by teachers and certificated by AQA.

English Literature

Set texts: Shakespeare's "Macbeth", Dickens' "A Christmas Carol", and Priestley's "An Inspector Calls". Power and Conflict poetry from the anthology set by the exam board.

There are two examinations at the end of Year 11:

Paper 1: Essays on 'A Christmas Carol' and 'Macbeth' (1- hour 45 minutes)

Paper 2: An essay on 'An Inspector Calls' and a comparison essay between two poems from their poetry anthology, a response to an unseen poem and a comparison with a further unseen poem. (2-hours 15 minutes)

Year 10

Autumn Term

- Students transfer their knowledge and understanding of tackling language paper 2 across to studying English Language paper 1: fiction reading and writing descriptions or narrative. (Links to GCSE Language, paper 1)
- Students move on to studying Dickens' "A Christmas Carol", the 19th Century novel of choice. This builds on the unit: 'The Macabre in Literature' studied in Year 8.
- Students need to learn the key events, themes and characters through an analysis of language used in the novel. (Links to GCSE Literature, paper 1).

Spring Term

- Students study the 'Power and Conflict' poems from the anthology. Students focus on understanding the content of each poem, analysing the poetic devices used by the poet and developing their comparative writing skills. (Links to GCSE Literature, paper 2)
- This develops and applies work done on poetry from Year 7, through recitation of Shakespeare in Year 8 and work on structure and practical criticism skills in Year 9.
- Students revise and develop their skills in English language writing skills. (Links to language, papers 1 and 2).

Summer Term

- Students revise how to tackle the non-fiction reading element of the language exam ahead of the Year 10 exam, which is a [full language paper 2](#). (Links to GCSE Language, paper 2)
- Students move on to study Priestley's "An Inspector Calls", the modern prose of choice. Students are introduced to some of the themes
- Students need to learn the key events, themes and characters through an analysis of language used in the novel.

Year 11

Autumn Term

- Students revise how to tackle the fiction-reading element of the language exam ahead of a mock [full language paper 1](#) to be held straight after half-term. (Links to GCSE Language, paper 1)
- Students revise Macbeth and A Christmas Carol ahead of a [full literature paper 1](#) mock exam to be set during the Year 11 mock exams. (Links to GCSE Literature, paper 1).

Spring Term

- Students revise An Inspector Calls and the Power and Conflict poetry ahead of a [full literature paper 2](#) mock exam straight after half-term. (Links to GCSE Literature, paper 2)
- Students revise both language papers building on feedback from previous mock examinations in each. (Links to GCSE Language, papers 1 and 2).

Summer Term

- Students revise both literature papers building on feedback from previous mock examinations in each. (Links to GCSE Literature, papers 1 and 2).

Student Work

Students are issued with two exercise books for different areas of the course. Work is regularly checked and monitored by the teacher. A minimum of one piece of homework is set weekly.

Assessment

All students have a GCSE target to aspire to that is based on prior performance in English to date. Progress is monitored through ongoing formal and informal assessment. To assist in this the students will sit full mock examinations at various points throughout the course.

Extra Help

- Students are invited to extra intervention, targeted at areas needing development and further work.
- Tuesdays from 3.15 pm - 4.15 pm, weekly in E3 for extra teaching and support in aspects of the syllabus.
- One to one help from individual subject teachers and teaching assistants.

Helping at Home

- Talk about the work students are completing.
- You might like to read the texts that they are studying as well so that you can discuss them with your child.
- Provide a quiet area where students can work on revision and homework.
- Encourage students to proof read their work and aim for technical accuracy at all times.
- Encourage students to read a range of fiction and non-fiction texts regularly.
- Encourage attendance at after-school English.
- Don't hesitate to contact the school and talk to the English Department.

GCSE Mathematics

Mrs E Griffiths

Examination Board	AQA
Syllabus	8300

GCSE Mathematics is a linear course where students are examined at the end of Year 11.

There are three examination papers (one non-calculator paper and two calculator papers) each lasting 1-hour 30 minutes. The course is divided into sections.

All students have the same calculator, given to them on arrival at the school, available to buy from the school shop (Logik Scientific).

Year 9

Students start their GCSE in the spring term of Year 9. They will develop deep conceptual understanding and fluency of basic mathematical skills.

Year 10

Autumn Term

Students develop work on statistics, number, algebra, geometry and measures.

Spring Term

Students continue working on algebra, number probability and geometry and measures.

Summer Term

Students develop work on ratio and proportion, algebra, statistics and take their Year 10 maths exam.

Year 11

Autumn Term

Students develop work on number and geometry and measures and take their mock exams: they will sit a mock for each paper. There are maths revision guides and workbooks available from the school shop and nearer to the exams, there will be packs of past papers also available to buy.

Spring Term

Students continue working on algebra and statistics and prepare for the examinations. They take a second mock in each paper just after February half-term in response to the previous mock exams.

Summer Term

GCSE comes to completion and is examined in June.

Student Work

Students work in an exercise book, which is regularly checked. In mathematics, all exercise books are seen as a means for developing knowledge and understanding and will include worked examples for reference. Students are encouraged to show all of their workings to a problem to help assess understanding and provide a useful resource for revision. A minimum of one piece of homework is set each week. This can take a variety of formats, including using the interactive online resource MyMaths.co.uk.

Assessment

All students have a GCSE target to aspire to that is based on prior performance in maths to date. Progress is monitored through ongoing formal and informal assessment. To assist in this the students will sit full mock examinations at various points throughout the course.

Helping at Home

- Talk about the work.
- Direct them to the appropriate pages in their revision guide.
- Contact the school and talk to the Mathematics department.
- Encourage attendance at the study support sessions that run every lunchtime in the Mathematics department and on Thursdays after school.
- Encourage use of the MyMaths website at home to support learning.

GCSE Combined Science

Mrs C Jones

Examination Board	Edexcel
Syllabus	1SC0

GCSE Combined Science is started in Year 9 and completed over Years 10 and 11. The course covers topics in Biology, Chemistry and Physics and teaching is divided between specialist members of staff. Essentially, during the course students spend a third of the year on each discipline and rotate around all three. Each discipline has two examinations, which take place in the summer of Year 11. The six examinations are equally weighted and make up 100% of the final overall grades; all papers last 1-hour 10 minutes. The course is worth two GCSE's, so students will receive two grades at the end of the course.

Year 9

Students start their GCSE in Year 9 by completing the units of work outlined below:

- **Biology**
Key concepts in biology: covering eukaryotic and prokaryotic cells in addition to the transport mechanisms of diffusion, osmosis and active transport.
Genetics: inheritance, variation, DNA and genes.
- **Chemistry**
Separation techniques and representing reactions: the changes of state, separation techniques and writing word and balance symbol equations.
Key concepts in chemistry: atomic structure and patterns in the periodic table.
- **Physics**
Forces and motion, Newton's laws and conservation of momentum
Energy transfer and conservation of energy, energy resources, basic waves.

Year 10

Students will rotate through the three disciplines throughout the term, continuing the work started in Year 9. During these topics, students have the opportunity to complete core practical tasks; these are experiments and practical methods that students could be tested on in the final examinations. During the Year 10 exam period, students sit a mock paper 1 in all disciplines. The topics covered throughout Year 10 are outlined below:

- **Biology**
Growth, cell division and genetic modification, as well as selective breeding.
Health, disease and the development of medicines - communicable and non-communicable diseases, vaccines and immunity
Ecosystems and material cycles.
- **Chemistry**
Key concepts in chemistry - atomic structure and bonding, writing chemical equations
Chemical changes - acids, neutralisation and electrolysis
Groups in the periodic table and extracting metals.
- **Physics**
Waves, light and the electromagnetic spectrum
Radioactivity
Energy - forces doing work
Forces and their effects.

Year 11

Students study the topics outlined below. Students will also continue to complete core practical tasks throughout the course. Students sit a mock paper 1 in each discipline during the mock exam period in December. Mock paper 2 for each discipline is sat at the end of the spring term in April.

- **Biology**
Key concepts in biology
Plant structures and their functions
Animal coordination, control and homeostasis
Exchange and transport in animals, including respiration.
- **Chemistry**
Key concepts in chemistry - calculations
Rates of reaction and energy changes
Fuels and changes to the atmosphere.
- **Physics**
Key concepts of physics
Electricity and circuits
Magnetism and electromagnetic induction
Forces and matter.

Student Work

All work is completed in an exercise book, which is regularly checked. In Science, all exercise books are seen as a means for developing knowledge and understanding and consequently may, at times, resemble jotters. Two pieces of homework are usually set each week where work is related to the units, the student is studying at that time. Some homework will be set using 'Educake' or 'seneca learning' online resource that allow teachers to select targeted questions and provides instant feedback. Students will be provided with a login for 'Educake' and 'Seneca learning' and shown how to access homework, as well as set themselves revision questions. Students are also provided with three revision folders, one for each science discipline, to help raise the profile of revision and to store revision sheets and tests.

Assessment

All students have a GCSE target to aspire to which is both challenging but realistic and is based on prior performance in Science to date. Progress is monitored through ongoing informal assessment and performance in end of unit tests. Students are provided with individual feedback on what they have done well and what they need to do to improve.

Helping at Home

- Talk about the work.
- Encourage students to use 'Educake' and 'seneca learning' to target their revision.
- Help students to use the checklists and 'question and answer' sheets designed to support each unit.
- Direct students to the appropriate pages in their revision guide and workbooks.
- Support students in attending after school support sessions.
- Don't hesitate to contact the school and talk to the Science department.

GCSE Biology

Mrs C Jones

Examination Board	Edexcel
Syllabus	1BI0

GCSE Biology is divided into two main sections; each section is worth 50% of the GCSE and is examined at the end of Year 11 through two exam papers, each lasting 1-hour 45 minutes.

Year 9

Students start their GCSE in Year 9 by completing the units of work outlined below:

- Key concepts in biology: covering eukaryotic and prokaryotic cells in addition to the transport mechanisms of diffusion, osmosis and active transport.
- Genetics: inheritance, variation, DNA and genes.

Year 10

Students will continue the work started in Year 9 and, throughout the year, will cover the topics outlined below. During these topics, students have the opportunity to complete core practical tasks; these are experiments and practical methods that students could be tested on in the final examinations. Mock paper 1 is sat during Year 10 exams.

- Growth, cell division and a more detailed look at complex genetic inheritance.
- Genetic engineering and selective breeding.
- Health, disease and the development of medicines - communicable and non-communicable diseases, vaccines and immunity, as well as plant diseases.
- Plant structures and their functions.

Year 11

Students study the topics outlined below. Students will also continue to complete core practical tasks throughout the course. Mock paper 1 is sat during Year 11 mocks in December. Mock paper 2 is sat at the end of the spring term.

- Key concepts in biology - cells and transport
- Animal coordination, control and homeostasis
- Exchange and transport in animals, including respiration.
- Ecosystems and material cycles.

Student Work

All work is completed in an exercise book, which is regularly checked. In Science, all exercise books are seen as a means for developing knowledge and understanding and consequently may, at times, resemble jotters. One piece of homework is usually set each week, where work is related to the units the student is studying at that time. Some homework will be set using 'Educake' or 'seneca learning' an online resource that allows teachers to select targeted questions and provides instant feedback. Students will be provided with a login for 'Educake' and 'seneca learning' and shown how to access homework, as well as set themselves revision questions. Students are also provided with a revision folder to help raise the profile of revision and to store revision sheets and tests.

Assessment

All students have a GCSE target to aspire to which is both challenging but realistic and is based on prior performance in Science to date. Progress is monitored through ongoing informal assessment and performance in end of unit tests. Students are provided with individual feedback on what they have done well and what they need to do to improve.

Helping at Home

- Talk about the work.
- Encourage students to use 'Educake' and 'seneca learning' to target their revision.
- Help students to use the checklists and 'question and answer' sheets designed to support each unit.
- Direct students to the appropriate pages in their revision guide and workbooks.
- Support students in attending after school support sessions.
- Don't hesitate to contact the school and talk to the Science department.

GCSE Chemistry

Mrs C Jones

Examination Board	Edexcel
Syllabus	1CH0

GCSE Chemistry is divided into two main sections; each section is worth 50% of the GCSE and is examined at the end of Year 11 through two exam papers, each lasting 1-hour 45 minutes.

Year 9

Students start their GCSE in Year 9 by completing the units of work outlined below:

- Separation techniques and representing reactions: The changes of state, separation techniques and writing word and balanced symbol equations.
- Key concepts in chemistry: atomic structure and patterns in the periodic table.

Year 10

Students will continue the work started in Year 9 and, throughout the year, will cover the topics outlined below. During these topics students have the opportunity to complete core practical tasks; these are experiments and practical methods that students could be tested on in the final examinations. Mock paper 1 is sat during Year 10 exams.

- Key concepts in chemistry - atomic structure and bonding, writing chemical equations
- Chemical changes - acids, neutralisation and calculations
- Extracting metals and electrolysis
- Groups in the periodic table and chemical tests

Year 11

Students study the topics outlined below. Students will also continue to complete core practical tasks throughout the course. Mock paper 1 is sat during Year 11 mocks in December. Mock paper 2 is sat at the end of the spring term.

- Rates of reaction and energy changes
- Reversible reactions and equilibrium
- Fuels and changes to the atmosphere
- Organic chemistry and polymers

Student Work

All work is completed in an exercise book, which is regularly checked. In Science, all exercise books are seen as a means for developing knowledge and understanding and consequently may, at times, resemble jotters. One piece of homework is usually set each week where work is related to the units the student is studying at that time. Some homework will be set using 'Educake' or 'seneca learning' online resources that allows teachers to select targeted questions and provides instant feedback. Students will be provided with a login for 'Educake' and 'seneca learning' and shown how to access homework, as well as set themselves revision

questions. Students are also provided with a revision folder to help raise the profile of revision and to store revision sheets and tests.

Assessment

All students have a GCSE target to aspire to which is both challenging but realistic and is based on prior performance in Science to date. Progress is monitored through ongoing informal assessment and performance in end of unit tests. Students are provided with individual feedback on what they have done well and what they need to do to improve.

Helping at Home

- Talk about the work.
- Encourage students to use 'Educake' and 'seneca learning' to target their revision.
- Help students to use the checklists and 'question and answer' sheets designed to support each unit.
- Direct students to the appropriate pages in their revision guide and workbooks.
- Support students in attending after school support sessions.
- Don't hesitate to contact the school and talk to the Science department.

GCSE Physics

Mrs C Jones

Examination Board	Edexcel
Syllabus	1PH0

GCSE Physics is divided into two main sections; each section is worth 50% of the GCSE and is examined at the end of Year 11 through two exam papers, each lasting 1-hour 45 minutes.

Year 9

Students start their GCSE in Year 9 by completing the units of work outlined below:

- Forces and motion, Newton's laws and conservation of momentum
- Energy transfer and conservation of energy, energy resources, basic electrical circuits.

Year 10

Students will continue the work started in Year 9 and, throughout the year, will cover the topics outlined below. During these topics, students have the opportunity to complete core practical tasks; these are experiments and practical methods that students could be tested on in the final examinations. Mock paper 1 is sat during Year 10 exams.

- Waves and sound
- Light and the electromagnetic spectrum
- Radioactivity
- Astronomy
- Energy - forces doing work
- Forces and their effects.

Year 11

Students study work on the topics outlined below. Students will also continue to complete core practical tasks throughout the course. Mock paper 1 is sat during Year 11 mock exams in December. Mock paper 2 is sat at the end of the spring term.

- Key concepts of physics
- Electricity and circuits
- Magnetism and the motor effect
- Electromagnetic induction
- Forces and matter.

Student Work

All work is completed in an exercise book, which is regularly checked. In Science, all exercise books are seen as a means for developing knowledge and understanding and consequently may, at times, resemble jotters. One piece of homework is usually set each week where work is related to the units the student is studying at that time. Some homework will be set using 'Educake' or 'seneca learning' online resources that allows teachers to select targeted questions and provides instant feedback. Students will be provided with a login for 'Educake' and 'seneca learning' and shown how to access homework, as well as set themselves revision questions. Students are also provided with a revision folder to help raise the profile of revision and to store revision sheets and tests.

Assessment

All students have a GCSE target to aspire to which is both challenging but realistic and is based on prior performance in Science to date. Progress is monitored through ongoing informal assessment and performance in end of unit tests. Students are provided with individual feedback on what they have done well and what they need to do to improve.

Helping at Home

- Talk about the work.
- Help students to use the checklists and 'question and answer' sheets designed to support each unit.
- Encourage students to use 'Educake' and 'seneca learning' to target their revision.
- Direct students to the appropriate pages in their revision guide and workbooks.
- Support students in attending after school support sessions.
- Don't hesitate to contact the school and talk to the Science department.

GCSE Art and Design

Ms S Keeling

Examination Board	OCR
Syllabus	J170

Students follow the OCR GCSE examination course in Art and Design; a course, which encourages breadth and depth in more than one area of study. The syllabus facilitates opportunities for active learning where students can negotiate their own syllabus content and work to their strengths and personal interests.

The specification comprises:

Component One

One coursework unit/portfolio completed in 45 hours under controlled conditions (60%).

Component Two

An externally set controlled task (40%).

Year 10

Autumn Term

Students complete a series of workshop sessions that include introducing and working on a range of skills and techniques and their application within GCSE Art and Design. Students choose a starting point from a selection of three titles and go on to complete a project that includes:

- a personal, critical response to a selection of artists' work
- a record of ideas through direct observation, insight and digital media
- a process of experimenting with materials and ideas
- a personal, informed and meaningful response.

Spring Term

Students develop a second unit of work based on their own art interests and inspiration following the same four assessment objectives identified in the last unit.

Summer Term

Students start the controlled coursework component. Students select from a range of starting points and begin to develop their initial ideas and observational work.

Year 11

Autumn Term

Students complete the controlled coursework component; they have 45 hours to complete this unit of work. This includes a 10-hour mock exam before Christmas to produce a final outcome.

Spring Term

Students begin preparations for their final examination question and complete all final examination requirements.

Summer Term

Students undertake the final 10-hour examination and exhibit their completed coursework for assessment.

Student Work

Students store their 2D work in A1 plastic wallets that are stored in the Art department. Some planning and homework is completed in individual sketchbooks or on paper.

Assessment

Students receive verbal feedback which is intended to guide students to consider how to make improvements to their artwork and encourage ownership and independence. This is in accordance with exam board specifications. All students have targets that are both challenging yet realistic and progress is monitored termly against these targets using OCR Marking Criteria. Students are encouraged to self-assess and use peer review to support their ongoing creative development, raise aspirations and inform learning.

Helping at Home

- Encourage students to look at a range of artists' work around studied topics. Look at art books, use the internet for research and visit art galleries.
- Encourage students to extend their individual planning work on a regular basis; experimenting with ideas, materials and techniques beyond the minimum requirement to promote depth and quality.
- Talk about their work.
- Provide access to work space and their own art materials.
- Encourage them to work on different scales, use different drawing materials/techniques and explore ideas imaginatively.

GCSE Computer Science

Mr C Parkes

Examination Board	Pearson
Syllabus	1CP2

Computer Science is a terminally examined course split into three sections:

- Unit 1 Principles of Computer Science
- Unit 2 Application of Computational Thinking

Unit 1 is a 1-hour 30-minute written examination worth 50% of the final grade.

Unit 2 is a 2-hour on screen programming examination worth 50% of the final grade.

Year 10

Students will complete work in the following areas:

- Topic 1: Computational thinking – understanding of what algorithms are, what they are used for and how they work; ability to follow, amend and write algorithms; ability to construct truth tables.
- Topic 2: Data – understanding of binary, data representation, data storage and compression.
- Topic 3: Computers – understanding of hardware and software components of computer systems and characteristics of programming languages.
- Topic 4: Networks – understanding of computer networks and network security.
- Topic 5: Issues and impact – awareness of emerging trends in computing technologies, and the impact of computing on individuals, society and the environment, including ethical, legal and ownership issues.

Students sit a full mock unit 1 exam paper during the Year 10 exam period.

Year 11

Students will complete further work on their Year 10 topics as well as preparing for the second practical examination. This is a 20-hour coding project, undertaken in Python. A second full mock examination is undertaken.

Student Work

All other work will be on computers and in exercise books.

Assessment

All students have a GCSE target to aspire to that is based on prior performance. Progress is monitored through ongoing formal and informal assessment. Students will receive feedback upon which they are expected to act.

Helping at Home

Homework will be set regularly and based on the learning outcomes for the units of study.

BTEC First Award - Construction and the Built Environment

Mr A Walker

Examination Board	Edexcel
Syllabus	FYL 85

The Edexcel BTEC Level 2 First Award in Construction and the Built Environment is comprised of four units:

- Unit 1 Construction technology
This unit is externally assessed through a paper-based exam (25%)
- Unit 2 Scientific and mathematical applications for construction.
This unit is an internally assessed e-portfolio (25%)
- Unit 3 Construction & Design
This unit is an internally assessed e-portfolio (25%)
- Unit 5 Exploring carpentry and joinery principles and techniques
This unit is assessed internally and is largely a practical unit supported by an e-portfolio. (25%)

Year 10

Autumn Term

Students have the opportunity to develop their practical skills through a series of carpentry and joinery tasks. They become increasingly familiar with the tools, materials, fixings and equipment that are commonly used. Health and safety is a key feature of this unit, preparing learners for work in this type of environment. Students record their activity in an e-portfolio.

Spring Term

This term focuses on preparation for the externally assessed unit. Students develop an understanding of the different forms of construction that can be used in buildings; they will investigate how floors, walls and roofs are detailed.

Summer Term

Students develop a broad understanding of the construction industry and the way it works. They start to look at the influence of clients' needs on the building design and develop their own design briefs. Students are then able to produce a series of sketch ideas to fit their brief. They are able to develop knowledge of key design principles in an engaging way. This work is in the form of drawings and supporting information and is internally assessed.

Year 11

Autumn Term

Students investigate the way in which forces and temperature change materials are used in construction. They learn how to use mathematical techniques to solve practical construction problems. The focus of this term is specifically on concepts that are immediately useful to learners when they undertake construction projects.

Spring Term

Much of the spring and summer term is dedicated to the completion of assessment tasks in readiness for final submission.

Summer Term

Much of the spring and summer term is dedicated to the completion of assessment tasks in readiness for final submission.

Student Work

Students record their work for each unit in an electronic portfolio. Drawings and written work are scanned into an electronic format so that it can be included.

Assessment

All students have a target to aspire to that is both challenging but realistic and is based on prior performance to date. Progress is monitored through ongoing informal assessment and discussion. Students are provided with individual feedback on what they have done well and what they need to do to improve.

Helping at Home

- Talk about the work that is being undertaken.
- Don't hesitate to contact the school and talk to the Technology department.
- Encourage attendance at the workshops during lunchtime and after school.

GCSE Design and Technology

Mr A Walker

Examination Board	AQA
Syllabus	8552

GCSE Design and Technology is assessed through two units:

- Examination (50%). One 2-hour exam paper that tests knowledge of the core technical principles, specialist technical principles and designing and making taken at the end of Year 11.
- Non-examined assessment (NEA) - (50%). A substantial design and make activity completed during the course.

Year 10

Students will cover the knowledge and skills that will allow them to succeed in the two assessed units. In Year 10 students will cover design issues such as new and emerging technologies; energy, materials, systems and devices; materials and their working properties; designing principles and making principles.

Autumn Term

Core technical principles – students will be given the opportunity to explore the wider issues of design and manufacture through a series of design projects. They will develop their skills and practice answering context based design problems.

Spring Term

Specialist technical skills – students will develop their knowledge and understanding of materials. They will investigate working properties and techniques through a range of tasks and experiments. Full mock exam is taken during Year 10 exam week.

Summer Term

'Designing skills – learning techniques for analysing, communicating ideas and presentation of information'. Students sit a mock examination to test their knowledge and understanding to date.

Year 11

Autumn Term

Much of the second year of the course is dedicated to the controlled assessment task. Lessons will be split between examination preparation sessions and the actual controlled assessment task itself. Second full mock is sat during Year 11 mock exam period.

Spring Term

Students complete the controlled assessment.

Summer Term

Students prepare for the final examination focusing on the examination board's pre-release material.

Student Work

Students have a design folder in which they will keep all of their paperwork and an exercise book in which they will keep theory notes and complete homework. In Year 11, the students will produce an electronic folder to show the 'story' of the development of their product. This folder and their practical work will be assessed.

Assessment

All students have a GCSE target to aspire to, that is both challenging but realistic and is based on prior performance to date. Progress is monitored through ongoing informal assessment and discussion. Students are provided with individual feedback on what they have done well and what they need to do to improve.

Helping at Home

- Talk about the work – students will need to canvas opinions and to test their products to gain feedback.
- Encourage the evaluation of products around the home as a starting point for their own designing (digital photographs would be especially useful).
- Don't hesitate to contact the school and talk to the Technology department.
- Encourage attendance to the workshops during lunchtimes and after school.

GCSE Drama

Mr B Seager

Examination Board	EDUQAS
Syllabus	C6902QS

Set Text: Hard to Swallow (Wheeller)

Assessment of GCSE Drama is 60% controlled assessment - 20% practical performance exam (C1) - externally assessed by a visiting examiner, 40% teacher assessed (C2) - externally moderated and 40% written examination lasting 1-hour 30 minutes that covers the set text and a review of live theatre (C3). The course involves performing scripted scenes, devising/directing/producing play scripts for performance, self-evaluation of performance and evaluating professional performance. Students need to maintain a portfolio/log book and practice written questions.

Students will have opportunity to see live theatre during the course but an opportunity to see live theatre outside the course is encouraged.

Year 10

Autumn Term

Students study the fundamentals of the course at this point as they create their first piece of controlled assessment. They are given the opportunity to demonstrate skills as devisers, designers, directors and performers as they study a scene from the set play. Throughout the term, students are asked to reflect upon their work and assess their progress in a portfolio/log book.

Formal opportunity to assess work contributing to component C1 happens here.

Spring Term

Students begin to prepare their first performance piece and practise writing a response about their ongoing findings in preparation for the examination. Students are provided with an opportunity to showcase their work. Work will continue on the performance piece - mainly through discussion and workshop-style activities.

Students create a devised performance. A closer look at the examination paper will also take part; students sit a full mock paper (C3) during Year 10 exam week.

Summer Term

Formal opportunity to assess work contributed to component C2 happens this term.

Year 11

Autumn Term

Students work on the performance of their examination piece of performance. They will continue to study the set play for the exam. Formal opportunity to assess work contributing to component C1 happens this term and students sit a second full mock exam (C3) during the Year 11 mock season.

Spring Term

Students perform their examination piece to be formally assessed by an external examiner and practise examination skills (C2). This date to be confirmed.

Summer Term

Opportunity is provided for students to showcase their work in a school performance and they take their final examination.

Student Work

Students will maintain a performance portfolio and an examination file over the two-year course. It will serve to record group progress in controlled assessment pieces, completed research and ways/methods students use to improve their work. These will be submitted to the exam board for marking. Information required for the examination will be stored in folders and will include practice questions, information in the form of handouts and consideration of drama techniques. A minimum of one piece of homework will be set on a weekly/fortnightly basis (dependent upon what is being studied at the time in class) and will predominantly require students to record their findings, comment upon progress and suggest ways to improve.

Assessment

All students have a GCSE target to aspire to that is both challenging and realistic. Progress is monitored through ongoing informal assessment and performance in the three components. Progress is also monitored through practice examination questions. Individual and group feedback will be given on what has gone well and indeed how students could improve.

Helping at Home

- Talk about the work.
- Assist when it comes to researching background information for coursework.
- Don't hesitate to contact school and talk to the Drama teacher.
- Encourage attendance at after-hours rehearsals for performance.

Useful Websites

www.eduqas.co.uk is a wealth of information on all of the scripted plays we offer online too. A simple search will reveal this.

GCSE Food Preparation and Nutrition

Mrs I Chorr

Examination Board	AQA
Syllabus	8585

Food Preparation and Nutrition is assessed through:

- 1-hour 45 minutes written exam taken at the end of Year 11 (50%)
- Controlled assessment (Non-examined assessment – N.E.A.) completed throughout the course (50%), two tasks which include a compulsory practical investigation.

Year 10

Autumn Term

Students must be taught how and when to use different food preparation skills to achieve a range of different outcomes. This will include:

- General practical skills including: preparing ingredients and equipment, correct cooking times, testing for readiness and sensory testing
- Knife skills including: fruit, vegetables, meat, fish or alternatives
- Preparing fruit and vegetables
- Using the cooker including the hob, grill and oven
- Making dough including: bread and pastry, use of raising agents.

Spring Term

Students will continue to develop their food preparation skills and develop a greater understanding of the function of ingredients through practical tasks and investigations including:

- Techniques to prepare, cook and combine different ingredients
- Sauce making including: starch based, reduction and emulsions
- Use of raising agents including: eggs, chemical, steam and biological
- Setting of mixtures through use of heat and egg protein
- Investigating environmental factors
- Explain how food is processed.

Summer Term

Students will focus on combining different skills and investigate how to present food attractively. They will be looking at new and emerging technologies in the food industry and how food manufactures market their products.

Students take a full mock exam during Year 10 exam week.

Year 11

Autumn Term

Students will undertake a non-examined assessment (N.E.A.) Task 1: food investigation (30 marks) where their understanding of the working characteristics, functional and chemical properties of ingredients will help them to write a report of 1500 -2000 words including photographic evidence of the practical investigation. Towards the end of the term, pupils begin their N.E.A. (Task 2) Food Preparation assessment.

Students sit a second full mock exam during Year 11 mock exam week.

Spring Term

Students will complete the non-examination assessment (N.E.A.) Task 2: food preparation assessment - students' knowledge, skills and understanding in relation to the planning, preparation, cooking, presentation of food and application of nutrition will be tested. Students will prepare, cook and present a final menu of three dishes within a single period of no more than three hours, planning in advance how this will be achieved.

The practical exams will take place just before February half-term.

Student Work

Students will complete the controlled assessment in an e-portfolio and/or are provided with folders to store work.

Assessment

All students will be monitored regularly throughout practical lessons by formal assessment. Students will be given a wide range of examination resources to complete as part of the ongoing assessment process. Students will be working towards set targets.

Helping at Home

- Students need to be encouraged to plan practical lessons in advance and are required to provide their own ingredients for practical lessons and to complete their coursework
- Encourage students to practice high level dishes at home
- Encourage students to revise using a wide variety of resources on offer (revision books, GCSE Pod, BBC bitesize)
- Encourage students to attend GCSE support sessions, after school or lunchtimes.

GCSE French

Miss L Taylor

Examination Board	AQA
Syllabus	8658

A GCSE in a Modern Foreign Language (M.F.L.) is a course divided into four skill areas: listening, speaking, reading and writing. Each component contributes 25% towards the final overall mark. Listening, reading and writing are assessed by an external written exam at the end of Year 11. Speaking is a non-exam assessment completed during Year 11.

The content of the course covers three distinct themes. Each theme is then divided into several topics and sub-topics:

Theme 1: Identity and culture

- Me, my family and friends
- Technology in everyday life
- Free time activities
- Customs and festivals in French-speaking countries/communities.

Theme 2: Local, national, international and global areas of interest

- Home, town, neighbourhood and region
- Social issues
- Global issues
- Travel and tourism.

Theme 3: Current and future study and employment

- My studies
- Life at school/college
- Education post-16
- Jobs, career choices and ambitions.

The course is progressive in terms of depth of grammatical knowledge and breadth of language. Each term content will be taken from a variety of themes, topics and subtopics.

Autumn Term

Students will be working on theme 1: Identity and culture and will cover the second and third modules of the AQA studio course for French.

Mock exams in listening and writing take place during Year 11 mock season.

Spring Term

Students will be working on theme 2: Local, national, international and global areas of interest, and will cover module 4 of the AQA course. During this term, students will be sitting their Year 10 examinations and time will also be given to revision.

Mock exams in writing take place during Year 10 exam week.

Summer Term

Students will be continuing and finishing work on theme 2, completing module 5 of the course.

The Year 10 speaking, reading and listening mock exams take place this term.

Student Work

Classwork and written homework is completed in an exercise book, which is regularly checked. Students also have a second exercise book for recording new vocabulary items and grammar points. In French all exercise books are seen as a means for developing knowledge and understanding and students are encouraged to take pride in their work. Work that covers different skill areas is organised in their books in a way that shows progression. Homework is set each week where work is related to the topic area the student is studying at that time. It may be written work, speaking practice or learning vocabulary.

Assessment

All students have a GCSE target to aspire to, that is both challenging but realistic and is based on prior performance in French to date. It is monitored through ongoing informal assessment. Students are provided with individual feedback on what they have done well and what they need to do to improve.

Helping at Home

- Talk about the work.
- Assist with developing strategies for learning new vocabulary to include spellings.
- Don't hesitate to contact the school and talk to a member of the M.F.L. department.
- Direct them to the appropriate pages in their revision guide.
- Encourage attendance at any revision/help classes.

GCSE Geography

Mr P Lee and Mr Jervis

Examination Board	AQA
Syllabus	8035

“Widen minds, broaden horizons”

The aim of our Key Stage 4 course is for our pupil’s to develop deeper geographical knowledge, understanding and skills that allow them to make decisions about the world and the role they have in the world.

We aim to inspire pupils’ curiosity to know more about where they live and beyond – to be fascinated by the world. To see the bigger picture; make links from local to global, the interconnectivity in the world and to understand changes over time. We work from the known to the unknown.

Our aim is for teaching and learning to equip pupils to ask perceptive questions, think critically, consider evidence, sift arguments, and develop perspective and judgement as an individual. We see the role of Geography as helping pupils to understand the complexity of people’s lives, the process of change, the sustainable use of resources, the diversity of societies and relationships between different groups in differing locations, as well as their own identity and the challenges of their time. We aspire to deepen their understanding of the interaction between physical and human processes, and of the formation and use of landscapes and environments.

We want students at Mary Webb school to enjoy their Geography lessons and to have a love for the subject that stays with them. That’s why we became Geography teachers, to share and to pass on this passion for the subject we love to a new generation of Geographers.

GCSE Geography is 100% terminal examination, which comprises of three papers, all taken at the end of Year 11. The course covers human, physical and environmental geography.

- Paper 1:** Living with the physical environment (35%) 1-hour 30 minutes
Paper 2: Challenges in the human environment (35%) 1-hour 30 minutes
Paper 3: Geographical applications (30%) 1-hour 15 minutes

Year 10

Autumn Term

- How does the sea shape the coastline?
- How do Rivers shape the land?

Spring Term

- Are there enough resources for the World?
- Will the lights go out?

Summer Term

- How are urban areas evolving?

Year 11

Autumn Term

- HICs, NEEs or LICs?
- Urban field visit (links to paper 3)

Spring Term

- Paper 3 Pre-Release
- Physical field visit (links to paper 3)

Summer Term

- Revision - Exam question practice
- Final examinations

Student Work

Students record their class notes and some homework tasks in workbooks. It is essential that these are kept up-to-date and that students read them after each lesson. Students need these to revise from. Homework tasks vary in nature and in length. One homework task is set each week where the work set relates to the topic being studied in class.

Students will take part in field visits – both a physical and a human geography visit during Key Stage 4.

Assessment

All students have targets to aspire to which are recorded in the front of their workbooks. Assessment takes place throughout the course using a variety of methods that are both informal and formal. This allows progress to be monitored closely. Students are provided with individual feedback on their achievements and what they need to do in order to improve.

Year 10 Mock GCSE paper focussing on Coasts, Rivers, Resource Management and geographical skills.
Sat during Year 10 exam week.

Helping at Home

- Discuss the learning taking place in lessons.
- Encourage wider reading of books, magazines and newspapers.
- Watch and listen to appropriate news and current affairs programmes on TV, online and on the radio.
- Don't hesitate to contact the school and talk to a member of the Humanities department.

GCSE History

Miss E Weston and Mr J Bird

Examination Board	Edexcel
Syllabus	1H10

“Widen minds, broaden horizons”

The aim of our Key Stage four course is for our students to gain a coherent knowledge and understanding of Britain’s past and that of the wider world. We aim to inspire pupils’ curiosity to know more about the past. Our aim is for teaching to equip pupils to ask perceptive questions, think critically, weigh evidence, sift arguments, and develop perspective and judgement. We see the role of history as helping pupils to understand the complexity of people’s lives, the process of change, the diversity of societies and relationships between different groups, as well as their own identity and the challenges of their time.

We want students at Mary Webb school to enjoy their history lessons and have a love of history that stays with them for their adulthood.

GCSE History is 100% terminal examination, which comprises 3 papers taken at the end of Year 11.

- Paper 1:** Thematic study and historic content. 1-hour 15 minutes. 30% of GCSE.
- Medicine in Britain C1250 to present day with a study of the British sector of the Western Front.
 - 1914-1918: Injuries, treatments and the trenches.
- Paper 2:** Period study and British depth study. 1-hour 45 minutes. 40% of GCSE
- Early Elizabethan England 1558-1588
 - The American West C1835 – C1895
- Paper 3:** Modern depth study. 1-hour 20 minutes. 30% of GCSE
- Weimar and Nazi Germany 1918 - 1939

Year 10

Autumn Term

- Recap American West
- Medicine through time

Spring Term

- Elizabeth I

Summer Term

- Weimar and Nazi Germany 1918-1939

Year 11

Autumn Term

- Weimar and Nazi Germany

Spring Term

GCSE Music

Mr G Sassano

Examination Board	AQA
Syllabus	8271

GCSE Music is divided into the three core areas:

- Understanding music is assessed through a 1-hour 30 minutes exam taken at the end of Year 11 (40%).
- Performing music is assessed internally and moderated externally. Students need to perform a solo and an ensemble piece (30%).
- Composing music is assessed internally and moderated externally. Students need to create two compositions; one in response to a brief, the other is free (30%).

Year 10

Autumn Term

This term covers the core elements of music theory. Through written and aural work, students work towards developing a sound knowledge of the areas of study in relation to the various strands. Various composition tasks are undertaken throughout the first half of this term in preparation for the forthcoming composition tasks.

Performance preparations will take place during the second half of the term, alongside theory.

Spring Term

Free composition begins. Theory continues throughout this term and an opportunity to re-record or submit a new performance is offered. Mock solo recordings take place after Easter.

Section A (1 hour – listening) of the mock exam is sat during Year 10 exam week.

Summer Term

The composition work is completed and submitted this term. Further time is dedicated to studying listening, appraising and theory exercises. Programme notes for composition are completed.

Formal submission of the free composition is made.

Student Work

Much of the work is coursework that contributes towards a portfolio. Composition and appraisal assignments are completed under controlled conditions in school whilst preparation for the performance and listening aspects of the course can be done outside of school. Homework is set weekly to consolidate learning. The majority of homework is research, reading and listening.

Assessment

All students have a GCSE target to aspire to that is both challenging but realistic and is based on prior performance in Music to date. Through ongoing informal assessment, students are provided with individual feedback on what they have done well and what they need to do to improve in order to reach their musical potential.

Helping at Home

- Talk about the subject and their work.
- Encourage participation in extra-curricular activities such as singing group, keyboard club or WebbRock.
- Listen to a wide repertoire of music
- Attend additional afterschool sessions (every Tuesday 3.15pm – 5.00pm).
- Don't hesitate to contact the school and talk to Mr Sassano.

BTEC First Award in Sport (NQF)

Mrs V Jevons

Examination Board	Edexcel
Syllabus	HMT 16 Level 1/2 First Award

The BTEC Level 2 offers a specialist qualification that focuses on sport. The certificate can extend a learner's programme of study and provide a vocational 'hands-on' emphasis.

This certificate is equivalent to one GCSE. The course is assessed through four units:

- **Fitness for sport and exercise**
(Assessed through a 1-hour 15-minute on-screen test – taken when students are ready to complete it although usually in the spring term of Year 10)
This unit gives learners the opportunity to explore the different components of fitness and the training methods that are used to develop them. The unit is designed for learners to actively engage in fitness training methods and to participate in fitness testing.
- **Practical sports**
(Assessed internally)
This unit allows learners to demonstrate their skills and techniques in a practical sports context, understanding the rules, laws and regulations of sports, and reflecting on their own performance.
- **Training for personal fitness**
(Assessed internally)
This unit allows learners to plan, perform and evaluate a six-week personal fitness plan linking in the knowledge gained from the fitness for sport and exercise unit.
- **Leading sports activities**
(Assessed internally)
This unit allows learners to plan and lead a sporting activity. The unit is designed for learners to lead a small group of students, gaining confidence and teaching experience.

Year 10

Autumn Term

- Components of fitness
- Training methods

Spring Term

- Fitness testing
- Development of training methods
- Online exam is taken this term

Year 11

Autumn Term

- Training for personal fitness
- Leading sports activities

Spring Term

- Training for personal fitness
- Leading sports activities

Summer Term

- Practical sport
- Gaining understanding of rules, laws and regulations
- Reflection and evaluation of performance

Summer Term

- Training for personal fitness
- Leading sports activities

Formal video assessments will take place throughout the year.

Student Work

Theory work is completed on A4 lined paper organised into a folder. Homework is set on a weekly basis where the work set is related to the unit the student is studying at that time and can be a written, reading or research-based task. Unit folders are also stored on the students' area of the school network. Each unit can then be monitored by staff for standard/completion of work.

Assessment

All students have a target to aspire to. Progress is monitored through ongoing informal assessment. Students are provided with individual feedback on what they have done well and what they need to do in order to improve.

Helping at Home

- Talk about lessons.
- Encourage participation in extra-curricular clubs.
- Encourage an active lifestyle, eg. walking the dog, cycling, playing football.
- Encourage students to read their notes in their file.
- Allow students access to websites to help revision.
- Encourage them to do homework.

GCSE Religious Education

Miss E Weston and Mr M Jervis

Examination Board	Edexcel
Syllabus	1RB0 – Beliefs in Action

“Widen minds, broaden horizons”

The aim of our Key Stage 4 course is to equip pupils with knowledge and understanding of a range of religions and non-religious worldviews, insights, beliefs and practices.

We aim to inspire pupils’ curiosity to question the ultimate meaning and purpose of life, beliefs about God or ultimate reality, issues of right and wrong and what it means to be human.

To enable pupils to develop their own views, values and identity. To develop an aptitude for dialogue in pupils and the capacity to participate positively as members of a diverse society and a globalising world. Pupils should learn how to study religions and non-religious worldviews systematically and to an increasing level of complexity and depth. They make progress by reflecting with increasing sophistication on the impact of religions and non-religious worldviews on contemporary life; and develop skills of interpretation and the capacity to evaluate evidence through this process. They learn to articulate clear and coherent accounts of their personal beliefs, opinions, values and experiences while respecting the right of others to have different views, values and ways of life.

Students study Christianity and Islam and sit two examinations in Year 11. Paper 1, Religion and ethics, is 1-hour 45 minutes. Paper 2, Religion, peace and conflict, is also 1-hour 45 minutes. They will engage with contemporary moral issues such as genetic engineering, the death penalty and war. Understanding religious views is vital for careers in politics, science, medicine and sociology, where religious literacy will be invaluable.

Year 10

Autumn Term

- Christian beliefs
- Marriage and the family

Spring Term

- Living the Christian life
- Matters of life and death

Summer Term

- Muslim beliefs

Year 11

Autumn Term

- Living the Muslim Life
- Peace and conflict

Spring Term

- Crime and punishment
- Revision and Exam question practice

Summer Term

- Final examination

Student Work

Students record their class notes and some homework tasks in workbooks. It is essential that these are kept up-to-date and that students read them after each lesson as students need these to revise from. Homework tasks vary in nature and in length. A minimum of one homework task is set each fortnight where the work set relates to the topic being studied in class.

Assessment

Assessment takes place throughout the course using a variety of methods that are both informal and formal - tests, decision-making exercises and extended pieces of writing are all used. Key assessments take place in each topic throughout the year. Students are provided with individual feedback on their achievements and what they need to do in order to improve and progress further in their learning.

Mock during Year 10 exam week based on Christianity - paper 1.

Helping at home

- Discuss the learning taking place in lessons.
- Encourage wider reading of books, magazines and newspapers.
- Watch and listen to appropriate news and current affairs programmes on TV, online and on the radio.
- Don't hesitate to contact the school and talk to a member of the Humanities department.

Religious, Moral, Social and Cultural Studies (Non-examined)

Mr P Lee, Mr M Jervis and Miss E Weston

“Widen minds, broaden horizons”

The aim of our Key Stage 4 course is to equip pupils with knowledge and understanding of a range of religions and non-religious worldviews, insights, beliefs and practices.

We aim to inspire pupils’ curiosity to question the ultimate meaning and purpose of life, beliefs about God or ultimate reality, issues of right and wrong and what it means to be human.

To enable pupils to develop their own views, values and identity. To develop an aptitude for dialogue in pupils and the capacity to participate positively as members of a diverse society and a globalising world. Pupils should learn how to study religions and non-religious worldviews systematically and to an increasing level of complexity and depth. They make progress by reflecting with increasing sophistication on the impact of religions and non-religious worldviews on contemporary life; and develop skills of interpretation and the capacity to evaluate evidence through this process. They learn to articulate clear and coherent accounts of their personal beliefs, opinions, values and experiences while respecting the right of others to have different views, values and ways of life.

Religious Education (R.E.) is a compulsory subject at Key Stage 4. Over the two years’ students follow a non-examined course that will give them an environment to explore and challenge their personal beliefs, whilst also giving them the religious literacy they need for their future lives. Students will explore a range of contemporary religious, moral, social and cultural issues and will be given opportunities to develop their speaking, listening and presentation skills.

GCSE Spanish

Ms J Thompson

Examination Board	AQA
Syllabus	8698

A GCSE in a Modern Foreign Language (M.F.L.) is a course divided into four skill areas: listening, speaking, reading and writing. Each component contributes 25% towards the final overall mark. Listening, reading and writing are assessed by an external written exam at the end of Year 11. Speaking is a non-exam assessment completed during Year 11.

The content of the course covers three distinct themes. Each theme is then divided into several topics and sub-topics:

Theme 1: Identity and culture

- Me, my family and friends
- Technology in everyday life
- Free time activities
- Customs and festivals in Spanish-speaking countries/communities.

Theme 2: Local, national, international and global areas of interest

- Home, town, neighbourhood and region
- Social issues
- Global issues
- Travel and tourism.

Theme 3: Current and future study and employment

- My studies
- Life at school/college
- Education post-16
- Jobs, career choices and ambitions.

The course is progressive in terms of depth of grammatical knowledge and breadth of language. Each term content will be taken from a variety of themes, topics and subtopics.

Autumn Term

Students will complete Modules 2 and 3 of the Viva AQA GCSE Spanish course. These modules cover aspects of themes 1 and 3 Family Life and School.

Spring Term

Students will start work on module 4 of the AQA course. This module is based on theme 1 - identity and culture. During this term, students will be sitting their Year 10 examinations and time will also be given to revision.

Mock exams in writing take place during Year 10 mock week, and listening, reading and speaking towards the end of Year 10.

Summer Term

Students will be continuing with work on theme 1, completing module 4 of the course, looking at free time activities and different types of entertainment. They will also complete module 5 of the course – looking at towns, describing the features of a region and problems in different areas.

The Year 10 speaking, reading and listening mock exams take place this term.

Student Work

Classwork and written homework is completed in an exercise book, which is regularly checked. Students also have a second exercise book for recording new vocabulary items and grammar points. In Spanish all exercise books are seen as a means for developing knowledge and understanding and students are encouraged to take pride in their work. Work that covers different skill areas is organised in their books in a way that shows progression. Homework is set each week where work is related to the topic area the student is studying at that time. It may be written work, speaking practice or learning vocabulary.

Assessment

All students have a GCSE target to aspire to that is both challenging but realistic and is based on prior performance in Spanish to date. It is monitored through ongoing informal assessment. Students are provided with individual feedback on what they have done well and what they need to do to improve.

Helping at Home

- Talk about the work.
- Assist with developing strategies for learning new vocabulary to include spellings.
- Don't hesitate to contact the school and talk to a member of the M.F.L. department.
- Direct them to the appropriate pages in their revision guide.
- Encourage attendance at any revision/help classes.

GCSE Astronomy

Dr G Ward

Examination Board	Edexcel
Syllabus	1AS0

GCSE Astronomy is an additional GCSE on offer to all students. The weekly lesson is delivered after school. The course is aimed at students who want to understand more about the Universe around them and who want to develop an enthusiasm for Astronomy as a theoretical and practical subject. The GCSE is made up from 2 units, each contributing to 50% of the qualification and each assessed by an examination paper.

Year One

Autumn Term

Students start their studies with a mixture of each unit of work:

- A1 Planet Earth
- A2 Celestial Observations
- A3 The Lunar Disc
- A4 Exploring the Moon

Students have opportunities to practise their investigative skills through observational tasks set within the second topic and through the rest of the course.

Spring Term

Students' field of study opens out to the rest of the Solar System:

- A5 Exploring the Solar System
- A6 Solar System Observation
- A7 Early models of the Solar System

Summer Term

Students continue with their work looking at the Solar System:

- A8 Planetary Motion and Gravity
- A9 Solar Astronomy
- A10 The Earth-Moon-Sun System

Year Two

Autumn Term

Students complete their look at planetary systems and start to explore the wider Universe:

- A11 Time and the Earth-Moon-Sun Cycles
- A12 Formation of Planetary Systems
- A13 Exploring Starlight

Students will sit a mock examination in December to help track their progress against their target grades.

Spring Term

Students complete the course:

- A14 Stellar Evolution
- A15 Our Place in the Galaxy
- A16 Cosmology

Summer Term

Students work through a structured revision programme before sitting the two external GCSE exams.

Student Work

Students will be expected to carry out written tasks as well as drawing diagrams and graphs, tabulating data and calculating astronomical quantities. This work will be carried out during lessons and as part of the weekly homework. The students will also be set observational tasks that will need to be carried out over a significant period of time as part of their homework.

Assessment

All students have a GCSE target to aspire to which is both challenging but realistic and is based on prior performance in Science to date. Progress in the subject is monitored through ongoing informal assessment. Students are provided with individual feedback on what they have done well and what they need to do to improve.

Helping at Home

- Talk about the work and monitor the student's homework
- Share observation tasks with the students.
- Download a free planetarium software, eg Celestia or Stellarium (see below).
- Encourage students to watch the monthly BBC programme 'The Sky at Night' and other television programmes.
- Don't hesitate to contact the school and talk to Dr. Ward.
- Encourage attendance at every lesson and as many extra events as possible.

Personal, Social, Health and Citizenship Education

Assistant Headteacher, Key Stage 4: Mr M Jervis

PSHCE is not an examined subject but is equally as important as one. The subject aims to develop students' knowledge and understanding of personal, social, health and citizenship education. The personal, social and health part of this is achieved through units of work that include money management, emotions, politics and crime. The citizenship work aims to develop a student's understanding of the world around them and to gain knowledge and understanding of what it means and how to be an active citizen.

PSHCE at Mary Webb School aims to help our students develop to become:

- Confident as individuals
- Responsible as citizens
- Successful as learners

Through the guidance and teaching of our tutors, students are given the opportunity to investigate and explore attitudes and their understanding of a range of issues. Thus helping them to develop as individuals, encouraging responsibility towards themselves and others and having the life skills they need.

Year 10

Autumn Term

Students work through the following topics:

- Family
- Mental health
- Alcohol – would you go out looking like ...?
- Relationships/Work experience working with others
- Targets/Mentoring

Spring Term

Students work through the following topics:

- Targets/Mentoring
- Revision plan & strategies
- RSE (Relationships and sex education)
- Sense of identity
- Create bullying video
- UK Parliament
- Law of the Land
- Sexuality
- Exam Preparation

Summer Term

Students work through the following topics:

- British Values
- Finance (Money management, Budgeting)

Year 11

Autumn Term

Students work through the following topics:

- RSE – You can say no
- RSE – Make the right choice
- RSE – STI'S
- RSE – Parenthood
- Sexual diversity
- Careers
- Revision strategies
- Mental Health

Spring Term

Students work through the following topics:

- Finance
- Drugs including legal highs
- Careers (Application Process)
- Planned revision
- Reports and target setting

Summer Term

Students work through the following topics:

- Planned revision

Student Work

Much of the work will be class discussion, which aims to encourage reflection on individual progress and identify what needs to be done to build on achievements.

Assessment

Students receive continuous oral feedback during lessons. Through the course, they will develop the skills to assess their own performance and the performance of others, identifying what needs to be done in order to progress.

Helping at Home

- Talk through the issues covered, asking how they feel about them.
- Help organise them so that they are prepared to participate in all lessons.
